Comments on Youth Night at the Warrior Softball Game (Comments only collected if response was "Yes.")

- 1. My daughter was super excited since she has been able to develop a relationship with the girls through softball and some of them that helped out at there school during the year.
- 2. Older girls need to interact more with the littles they are there heroes for that night
- 3. I thought it was a very good evening and ran well. It was great to see all of the younger athletes and how they look up to the older athletes.
- 4. We enjoyed it
- 5. My daughter really loved getting the poster signed by all the girls. She hung it up in her room. There was no real interaction between the young girls and the players. The players were too shy to talk to the girls and vice versa.
- 6. Liked the autographs and poster signing with the players.
- 7. Liked getting to the girls and the signing.
- 8. She loved It.
- 9. Wonderful event

How often did your athlete(s) attend our optional preseason practices at John Muir?

Comments on Optional Preseason Practices (Comments collected on all responses except "Never.")

- 10. Great intro. to a lot of basic skills and lots of fun
- 11. Great way to stay sharp in the off season. Only downfall is the girls who participate all winter and make progression have to start over once they begin rookies. On the plus side my daughter also played on a travel team and compared to other kids her fundamentals were a lot better than other kids from around the area.
- 12. High School player, attended all that was offered
- 13. Thought it was also ran very well.
- 14. Girls enjoyed it
- 15. Perfect for skill building! Very well run!

- 16. She went to as many as her schedule allowed. Basketball times were often the same times as the optional practices.
- 17. Liked everything about it. Maybe with older girls, more position specific drills. Catchers- blocking drills, throw down, 1st base drills etc..
- 18. Good way to get pre-season work in.

- 38. Great opportunity for girls who are not on traveling teams.
- 39. For food sales, Culver's is close and you may loose sales to them.
- 41. I would just need to schedule around my work schedule.
- 42. Look at how many people filled out volunteer applications. Having help run a tournament won't be a problem.
- 43. The only caveat would be those families that have a parent as a coach or assistant coach be excused from this requirement. These people are giving enough of their time coaching throughout the season.

Comments on our Concession Stand

- 48. Not much selection....
- 49. \$2 for a bottle of water is too much. That's a price you pay at college level games, etc. A case is \$3 water is crucial for players. I'd say \$1 is plenty
- 50. Better popcorn, Nachos
- 51. \$1 hot dogs cheapest anyplace....do \$1.50 and you will still be the cheapest
- 52. very nice lady.
- 53. What is offered at the concession is very little . You have to remember that allot of these games arebafter work and around dinner time for people . I sat there watching my kkd on a double header night hearing all he parents say they still had to go home and cook something for dinner . Several affordable options can go in there and be lucrative to put back in to the organization. Walking taco for instance. I believe you already were selling bags of chip have a crock pot of taco meat . And sides of cheese and tomatos and onion . U can in turn then use the onion and taco meat and cheese to also make a chilie dog . 2 new items added to the menu . And also offer a cpl sides for the dogs and brats . Aldi also has the family pck of brats all the time for a little over 5.00 . The the large pack of 32 hot dogs i beleive are in the same price range . So that there is money to be made to put back . And also to get pople to feed their kids dinner at the park . I have more ideas for small items to boast the sales in your concession stand if interested. Thanks
- 54. I think you had a good variety of items.

Portage Pride & Tournaments

OPTION 1: This includes selecting a team of players prior to the season and practices beginning (usually in the fall or winter). Tryouts would be required and Pride teams would play in 2-6 tournaments throughout the season depending on the head coach's preference. An additional fee would be required ranging from \$100-\$300+ (depending on the number of tournaments) in addition to the regular registration fee. This option would also require at least one more night of softball for these players as Pride teams would have practices in addition to the recreational practices. Additionally, most tournaments take place Friday-Sunday and each team's tournament schedule and locations will not be known until after players commit to the team.

OPTION 2: Enough players to form a team would be offered playing spots midway through the season. It would not matter which recreational team athletes were on and tryouts would only be required if the head coach felt it was necessary to make fair decisions on who should play on the team. With this option, these players would wear their regular recreational uniforms for these tournaments. They would play in 1-3 tournaments toward the end of the season or after the season is complete. Additional practices for this team would only start once the team was created midway through the season. A small additional fee may also apply.

Which option would you select for the 10U, 12U, & 14U Leagues?

League	Option 1	Option 2	No Preference	Percent Option 1	Percent Option 2
10U League	5	20	22	20.00% (\10.00%)	80.00% (†10.00%)
12U League	16	14	17	53.33% (↑3.33%)	46.67% (↓ <mark>3.33%</mark>)
14U League	23	3	21	88.46% (↑23.35%)	11.54% (↓ <mark>23.34%</mark>)

NOTE: Percentages calculated using only responses that selected "Option 1" or "Option 2." Responses that selected "No Preference" were ignored in this calculation, but they are shown above.

Comments on Portage Pride & Tournaments

57. I see the benefit for having practices earlier in the season --especially for 12u and 14u. However, some of the girls may play other sports during the school year so having them play and practice softball earlier could lead to burn-out or injuries. If there was a way to require some time in the gym or batting cages (for example - 4 hours of independent practice) every month (Nov or Dec through March) that may help the girls and their parents choose the time that works best for their family. This way they are still using some softball skills, but won't get overwhelmed or burned out. Organized team practices then could begin in April to get a better start on the tournament season.

- 58. You need to have tryouts, option 2 seems that you would run into coach ball or dad ball. Girls need to be on a team according to talent.
- 59. I'd only chose option 2 because it's way cheaper, otherwise option 1
- 60. daughter now 16u
- 61. My daughter MISSED being on Pride this year due to the 10U not offering it. She loved it last year.
- 62. Here's the problem with option 2. Your best players are gonna want to play tournaments. If they wait until the middle of the season, there is no guarantee there will be enough interest to field a team and then your best players missed out on other potential opportunities because all other travel teams have tryouts in august.
- 63. By starting so late in the season, their skills are not close to the other teams they compete against at these tournaments.
- 64. Our 12U girls had roughly 10 Pride practices and played in 3 tournaments NAFA, Wautoma, and Arkdale. I felt that by the time we ended our last tourney they were just gelling as a team and making considerable improvements. I wished the season could've been longer so I'd love to see an earlier commitment and play in more tournaments next year.

Comments on Coaching Clinics (Comments only collected if response was "Yes" to the attendance question.)

- 65. Coaches need to understand that they are there to coach and teach the girls. If you have no skills to teach the girls than don't coach.
- 66. Couple coaches did not attend this and were still coaching. I have not kept it a secret....I think these need to be 100% mandatory. I also think there should be a coaches meeting after all the coaches have been picked.

Do you think the Board of Directors should compile a coaches' handbook or online course that explains practice drills, game strategies, expectations, etc. for all PYS volunteers so that all volunteers teach the same things and have resources available to them? (Response only collected if respondent indicated they were a volunteer.)

Yes	No	Percent Yes
9	1	90.00%

Comments on Coaching Handbook or Online Course (Response only collected if respondent indicated they were a volunteer.)

- 67. Many of these things are already online so I don't think a handbook would be necessary. If you want to add additional things (practice drills or warm-up activities) to the online page, that might be beneficial.
- 68. Lists of hitting and throwing drills. It can get really boring doing the same thing over and over. Could also list some fun things to do at the end of practice. Mark taught me that at u12 and I always tried to do something fun for the girls the last 5 or mins of practices
- 69. Yes, I love this idea although I know it will be a lot of work up front but it would be well worth it. I worked for the Onalaska park and rec and they had a big binder containing drills and example practice plans for every age level. What was great is you could see the progression of the drills as the kids got older and the terminology the head varsity coach used was reiterated throughout the handbook and age levels.
- 70. Consistency is important.
- 71. I enjoyed the training videos on you website. I was able to go back and review when I had any questions. And I was able to have Bella watch the videos so she knew what the coaches were trying to teach. Very helpful

Is there anything that we can do to better prepare and equip our volunteers for a successful season?

- 72. Coaches should work more effectively together instead of icing each other out.
- 73. This season we met as coaches before the season to make sure we were on the same page. I think requiring some sort of meeting with the coaches before the season would be beneficial. I also think it would be good for the coaches to have another meeting during the middle of the season to make sure everyone is still on the same page or if there are things that could be changed to make the season even better.
- 74. Girls need to learn the skills that they learn or need to know at the varsity level. Coaches need to practice skills that improve those skills of the girls.

- 75. I loved how the girls were broken down into small groups based on skills. This allowed them to get the attention they needed at the level they needed. My daughter who is 7 loved the fact that she was playing softball like her big sister.
- 76. Excellent program. My daughter has been very fortunate to have been in great hands. Pre season practices I believe have been the most beneficial for her (most personalized instruction). I like the participation from the high school girls my daughter looks up to them and they carried themselves as leaders during practices. I liked how the rookie program was restructured this year breaking them up by talent and age in to smaller groups.
- 77. Lots of coaches! Stations were great!

Dislikes

78. My daughter will be going on her 4th year next year in the rookie program. One of my biggest dislikes is she is not allowed an opportunity to try out to play up. We took her outside the program this past summer to keep her interested and to keep her challenged facing higher competition. She loved preseason practices but she didn't like starting over at the beginning of the season because she was one of the few her age at the preseason practices. She also said she doesn't like the amount of kids and it's too much at times.

Recommended Changes

79. Break the rookie program up to 5/6 and 7/8. Allow kids an opportunity to try out for next level.

- 98. I thought the overall experience was great.
- 99. Megan knew the game for sure. Not sure she was great at helping the girls find THEIR strengths & weaknesses which I feel is an important job of a coach. These girls have in their head what positions they want or are good at and sometimes they Are right but sometimes they don't fully understand that there is somewhere that may be a better fit & get them more field time.

- 108. We were gone with the travel team a lot, so did not get to play a lot of games with this team so do not have much of an opinion
- 109. I thought the overall experience was great.
- 110. Coach's are awesome
- 111. Doubleheaders so that it is a one night commitment so other nights are open for other sports.
- 112. Great communication and coaching from Troy. Not much traveling.

Dislikes

- 113. What we were there for, I felt the competition was week. Neutral on the value as we were not there much (but that was on us as we were on another team also) and the competition was not there.
- 114. No dislikes
- 115. Really worried about decreasing numbers. It's awesome that we have so many girls playing travel ball, but we were really short most Thursday nights and was only able to pull from the 14s a couple of times because they had games too

- 117. Maybe could organize carpooling among team for upcoming season. Provide money for fuel. It would be a way for the girls to get together a little bit.
- 118. If under classmen are put on varsity they should play. Otherwise you are holding them back and not helping them grow as a player. Keep them on JV.
- 119. We either need to consider scrapping the games and just practicing (which the girls were NOT in favor of...I asked) or there absolutely cannot be any u14 games played on Thursday night. Next year will be even more of a challenge if all but a few of your srs are playing travel ball.

Additional Comments

- 120. had a fun and enjoyable season with all the girls and jayson. I believe those girls came along way from where we started.
- 121. Love the program and my daughter is very fortunate to be a part of it.
- 122. Thank you to all who do the work to put this on every year for the kids.
- 123. Fun season, went by really fast. Good job everyone.
- 124. Thank you!
- 125. really appreciate all coaches time and dedication
